Dear Steve,

I am writing to express my appreciation for the professional, quality work performed on the recent re-roof at our main recreation center. Specifically I would like to commend the work of your foreman Mikki Zimonjic.

As you are aware this project was installed over a functioning recreation center. Also, at the time our adjacent outdoor pool was open. Add to this the limited material storage areas, tight areas for tear off material, the constant flow of pedestrian and vehicle traffic and you have a scenario for problems and complaints.

I was very pleased that this was not the case. Mr. Zimonjic communicated and listened daily to the needs of the on site staff. His cooperation and quick response is what kept this project moving forward and successful.

In closing, I appreciate Maxwell Roofing employee's commitment to this project. Please pass along my thanks to Mr. Zimonjic.

Sincerely,

Keith Feinstein
